

DERMACARE™
*The Premier Medical Spa
in the Pacific Northwest*

Pre & Post BLU-U® Acne Treatment Instructions

Thank you for choosing DermaCare for your acne treatment. The following instructions will help you achieve the best results from your BLU-U® Acne Treatment. Please take a moment to review this information and go over any questions and/or concerns you may have with the DermaCare staff.

Prior to each treatment please reveal any medical conditions that may be of significance like pregnancy, cold sore and fever blister tendencies, any type of allergy, recent facial peels or surgery, and medication changes.

Avoid sun exposure, bright indoor light, self-tanning lotions, tanning booths, or sunbathing one week prior to your appointment. (Any patient arriving with a tan or sunburn may be rescheduled due to the sensitivity of the procedure to alter your skin color and for the sake of your own safety).

For optimal results use with acne cleansers and prescribed medications.

Thank you for choosing DermaCare for your BLU-U® Acne Treatment.
