

DERMACARE TRICITIES PRESENTS

The Bridal Beauty Countdown

"Here's to love, laughter & happily ever after."

LIGHTEN SUN DAMAGE

Lighten any dark sun spots or melasma with Laser Peeling, FotoFacials or Advanced Chemical Peels in combination with prescription lightening creams.

WHEN: 3-6 months prior to your wedding day

PLUMP & VOLUMIZE

Soften tired eyes, add some pout to the lips, or restore natural volume in the cheeks with Juvederm, Restylane or Radiesse.

WHEN: 2-3 months prior to your photoshoot & again 2-3 months prior to your big day

MANICURED NAILS

Begin getting regular manicures & pedicures to make sure your nails are in good health.

WHEN: Begin regular mani's & pedi's 3-4 months prior to your wedding day and your last one should be 2 days before the big day

SPRAY TAN

Go to the salon for a trial spray tan. That way you'll know if the color needs to be adjusted based on your skin tone.

WHEN: Begin trials 2-3 months prior to your wedding day and have your last spray tan 2 days prior to the big day

FLAWLESS MAKEUP

Book a mineral makeup consultation. Using mineral makeup prior to and on your special day will help your skin look its best.

WHEN: 12 months prior to your wedding day

COLLAGEN STIMULATION

Tighten the face & neck or minimize facial acne scarring with a Fractionated CO2 Resurfacing Laser or a Radio Frequency (with or without microneedling) treatment. (i.e., Smartskin CO2, Exilis or INFINI)

WHEN: At least 8 months prior to your big day

BEAUTIFUL HAIR

See your hairstylist for a trial run. You'll want to try out different styles in advance so you know which style will make you feel your best and most confident.

WHEN: Begin trials 3-4 months prior to your wedding day & rock your chosen style on the big day
